ADDITIONAL INFORMATION REQUEST

AGE DATA WANTED BY B&Q, BUT NOT REQUIRED

In an effort to increase the relevancy and value of the Club's records program, Bolt & Quarrel Club wishes to obtain age data for your trophy, if possible, even though age data is not required. Records keeping is more relevant to big game managers if B&Q can supply them with age data. Age data also helps substantiate the contention that most trophy-sized animals are well past prime breeding age. If you know the age of your trophy and the method by which it was aged, please include both on the appropriate lines below.

The age of my trophy is: _____

The age of my trophy was determined by:

_____ Sectioned Tooth.

_____ Tooth Replacement and Wear.

_____ Horn Rings (Sheep and Goats).

_____ Tagged Animal.

_____ Method Unknown.

_____ Other: _____.

BOLT & QUARREL CLUB WILL DETERMINE AGE OF YOUR TROPHY

If you don't know the age of your trophy, please consider sending a tooth from it to B&C. In order to determine the age of a trophy, the first premolar is needed for bears (Figure A.), the second premolar for cougars (Figure B.), and one of the center incisor teeth (Figure C.) for all other categories, except walrus. Contact the records program office first if you have a walrus to age. You can also send us a lower jaw for any trophy. (Please note that neither the tooth nor the lower jaw will be returned as it is destroyed in the aging process.)

TOOTH SUBMISSION BY U.S. HUNTERS

U.S. hunters can send their teeth or lower jaw directly to B&Q Club with their other entry materials.

ATTENTION

1. Send only teeth indicated in Figures A., B., and C. for each category.
2. Teeth that have been boiled and/or bleached are not acceptable.
3. Root tip must be attached to tooth.
4. Tooth must be cleaned of all flesh.
5. Mail tooth in padded envelope – not wrapped in plastic as it will rot.
6. Contact the records office at 330/388-8610 for instructions if you have a walrus to age.
7. Tooth submission should be in a padded envelope marked with the name, address, and telephone number of the hunter. Canadians must include a copy of the license/tag.

TOOTH SUBMISSION BY CANADIAN HUNTERS

Canadian trophy owners cannot send their teeth directly to B&Q without accompaniment with proper export/import permits for all trophies and a CITES permit for any bear and cougar teeth. This can be costly and complicated, so B&Q has established a collection point in Canada (see below). Teeth will be collected at this location for a year and then forwarded to B&Q with the proper export/import permits. Costs for importing will be paid for by B&Q.

Canadian hunters must send their teeth or the lower jaw to the following address. Each tooth should be mailed in a padded envelope and labeled with the name, address, and telephone number of the hunter, and accompanied with a copy of the hunting license. Lower jaws should be mailed in a padded envelope or sturdy cardboard box. Teeth will not be sent to B&Q without hunting license copy.

SEND TO: Dr. Vince Crichton
1046 McIvor Ave.
Winnipeg, MB R2G 2J9
